

§ 12.16

(k) *Public accountants* means those individuals who meet the qualification standards included in generally accepted government auditing standards for personnel performing government audits.

(l) *State* means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the trust Territory of the Pacific Islands, any instrumentality thereof, and any multi-State regional, or interstate entity that has governmental functions and any Indian tribe.

(m) *Subrecipient* means any person or government department, agency, or establishment that receives Federal financial assistance to carry out a program through a State or local government, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a direct recipient of Federal financial assistance.

§ 12.16 Scope of audit.

The Single Audit Act provides that:

(a) The audit shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial and compliance audits.

(b) The audit shall cover the entire operations of a State or local government or, at the option of that government, it may cover departments, agencies or establishment that received, expended, or otherwise administered Federal financial assistance during the year. However, if a State or local government receives \$25,000 or more in General Revenue Sharing Funds in a fiscal year, it shall have an audit of its entire operations. A series of audits of individual departments, agencies, and establishments for the same fiscal year may be considered a single audit.

(c) Public hospitals and public colleges and universities may be excluded from State and local audits and the requirements of this rule. However, if such entities are excluded, audits of these entities shall be made in accordance with statutory requirements for grants to universities, hospitals, and other nonprofit organizations.

43 CFR Subtitle A (10-1-96 Edition)

(d) The auditor shall determine whether:

(1) The financial statements of the government, department, agency or establishment present fairly its financial position and the results of its financial operations in accordance with generally accepted accounting principles;

(2) The organization has internal accounting and other control systems to provide reasonable assurance that it is managing Federal financial assistance programs in compliance with applicable laws and regulations; and

(3) The organization has complied with laws and regulations that may have a material effect on its financial statements and on each major Federal assistance program.

§ 12.17 Frequency of audit.

Audits shall be made annually unless the State or local government has, by January 1, 1987, a constitutional or statutory requirement for less frequent audits. For those governments, the cognizant agency shall permit biennial audits, covering both years, if the government so requests. It shall honor requests for biennial audits by governments that have administrative policy calling for audits less frequent than annual, but only for fiscal years beginning before January 1, 1987.

§ 12.18 Internal control and compliance reviews.

The Single Audit Act requires that the independent auditor determine and report on whether the organization has internal control systems to provide reasonable assurance that it is managing Federal assistance programs in compliance with applicable laws and regulations.

(a) *Internal control review.* In order to provide this assurance the auditor must make a study and evaluation of internal control systems used in administering Federal assistance programs. The study and evaluation must be made whether or not the auditor intends to place reliance on such systems. As part of this review, the auditor shall:

(1) Test whether these internal control systems are functioning in accordance with prescribed procedures.
